Drill Rental Agreement and Release of Liability Statement

I, _____, am responsible for the Morgan County SWCD Truax FLXII Grass Drill while it is in my care, custody and control. I will be operating the drill or will only allow another responsible adult to use this drill in a safe manner. I confirm that insurance is current on the vehicle towing the drill. I am responsible to inspect the drill for any damages and will immediately report any damages to the SWCD office. I agree to return the drill on or before said date. I agree to use the equipment as agreed herein.

Rental Rates:

- A \$50.00 deposit is required for the use of the drill and needs to be paid at the time of pickup. The renters deposit will be refunded after the drill has been returned on time and in good working order, (i.e. drill must be cleaned, seed boxes empty, no mud between coulters, lights working, etc.). Drill tool box along with manual needs to be returned with drill.
- The renter will be charged \$10.00 per acre with a \$30.00 minimum plus 7% sales tax if applicable. Payment is to be made immediately after use to the Morgan County SWCD. If the renter defaults on payment, the renter must pay back-payment plus pay in advance for any future use.

Transporting:

- User will be responsible for transportation to and from his/her property
- Do not exceed 20 MPH when transporting drill
- Disengage drill before transporting
- Raise rear safety stand before transporting
- Hydraulic hoses must be secured to prevent hoses from dragging
- Use safety chain during transport
- Use caution when crossing bridges—drill is 11 feet wide
- After use, make sure hydraulic adapters remain with drill, user will be held responsible if lost

Operating:

- Do NOT backup with drill down or engaged
- Drill MUST be raised before turning
- Do NOT use fertilizer in any of the boxes
- The seed opener must not be opened wider than the stop
- Do NOT store anything in unused seed boxes (i.e. tools, tarp, manual, etc.)
- The drill must be used in a careful and prudent manner, keeping it in good repair and properly lubricated

Pertinent Information:

- User will assume the risk of personal injury or property damage when injury or damage is directly related from use or transportation of the drill.
- Normal wear and tear is expected and is not the responsibility of the user. Contact the SWCD office if damage occurs and/or repairs are made. Only original Truax replacement parts are to be used. User will be reimbursed for repair parts, as long as receipt for parts is furnished to the SWCD office.

The renter assumes responsibility for damage to the drill while in his / her possession.

Truax FlexII Grass Drill Check List

Check Out

- Write down meter reading on rental agreement
- Tool box with Owners Manual
- Disengage the drill sprocket lockout hub before transporting
- Transport Locks—Make sure they are locked in place (located on the hydraulic cylinders)
- Make sure lights are working
- Raise rear safety stand before transporting
- Make sure hydraulic hoses are secure
- Check to make sure drill is clean, seed boxes empty, no mud between coulters, etc.
- Make sure seed box lids are down and secure

Operating—additional info for Renter

- Engage the drill sprocket lockout hub—**do not back up with drill down** or engaged
- Transport Locks—remove retaining pins and bars during drill operation. This will allow the drill to float or adjust during planting on unlevel terrain.
- Seed calibration—see owners manual in tool box for more information (pg.30-1 to pg.30-11) Pour seed into appropriate seed box for planting. (i.e small grains, food plot seeds etc.in grain box; warm season grasses in middle fluffy seed box; and legumes (or forbs if being drilled alone) in small front box). Be sure to close seed box lid.

Check In

- Write down meter reading on rental agreement
- Tool box with Owners Manual
- Make sure lights are working
- Inspect hydraulic hoses
- Drill must be clean, seed boxes empty, no mud between coulters, etc
