

# Invasive Management Cooperative of Morgan County

## IMCMC

*Volunteers with a focus on education of invasive species in Morgan County*

### What is IMCMC?

- You are invited IMCMC 6:00 pm monthly meetings held at Morgan County Administration Building 180 South Main Street, Martinsville IN 46151.
- A volunteer group with a focus on education and eradication of invasive species.
- Provides information on Best Management Practices (BMP) for the removal of invasive species.
- Will conduct eradication programs which will be held on public property for the sole purpose of training to properly identify invasive species and best methods of control.
- IMCMC will conduct audits of Invasive species on personal property upon request.
- IMCMC needs volunteers for a variety of projects.
- IMCMC's goal is to inform public on how detrimental invasive species are to our health, our environment as well as costing the State of Indiana BILLIONS of dollars every year.
- PLEASE JOIN US!
